

Independent Nursing Services

Dedicated, Established, RN Owned

Congratulations! You have been approved for access to the HFHS on line testing. You may access the testing website at <http://www.hfhsuniversity.org>. The login ID is your nurse's first initial and last name, all lowercase. For example, Amy Meyersieck's login ID would be ameyersieck. The password is welcome.

These tests are part of the screening process to ensure that new nurses are aware of the policies and procedures of the hospital. Because agency nurses are required to have two years of experience in their field, no formal orientation takes place when they begin working. The competency tests are a form of orientation, and then the nurse is orientated to the unit for up to 16 scheduled shift hours.

All medical/surgical and ICU nurses are required to take the Henry Ford Health System and Henry Ford Medical Center modules. These modules will be available online. You will be able to review the test module's study guide on the website, then complete the test.

You have two chances to pass these tests. You must score 80% or higher to pass the tests except the Blood Administration test; a nurse must score 100% on the Blood Administration test (there are 10 questions).

If you do not pass on the first attempt, he/she must wait 24 hours before retaking the test online. If you do not pass all of the tests after two attempts, you cannot be considered for a position at Henry Ford Hospital Detroit for 6 months.

ICU candidates must schedule a time to take the BKAT and Critical Care Drug Calculation tests in the Henry Ford Nursing Development office in the F-Baseament of the hospital. Testing days are Monday, Tuesday and Thursday at 8:30 am and 1:00 pm.

Nurses have only one chance to score at least 80% on the BKAT, and there are 100 questions on the test. The BKAT tests an ICU nurse on his/her knowledge and experience of critical care scenarios and processes. There is no study manual available for the BKAT from Henry Ford Hospital (but you may be able to find one on the internet).

Please contact me when you have completed the tests online to schedule the BKAT and Drug Calculation tests at the hospital.

Thank you.
